Industry Lectures

What to expect as an industrial CFD engineer?

Shengbai Xie

In this lecture, from my own experience, I will talk about industrial problems a CFD engineer may encounter, the popular solutions, and some current challenges. Also, I will briefly compare the differences between a CFD researcher in a university and a CFD engineer in a company.

About the speaker

2017-now: Senior Research Engineer, Convergent Science Inc., USA

2016-2017: Research Engineer, Convergent Science Inc., USA

2016: Ph.D., Ocean Engineering, University of Delaware, USA

2012: M.Sc., Mechanical Engineering, Johns Hopkins University, USA

2008: M.Sc, School of Jet Propulsion, Beihang University, China

2006: Bachelor, School of Jet Propulsion, Beihang University, China
